New Delhi, India • +91 9138420299 • angaddhiman10@gmail.com • [LinkedIn](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Technical Product and Program professional with 3+ years of experience delivering scalable enterprise IT and AI-powered EdTech solutions. Proven track record of leading Generative AI initiatives, authoring product requirements, managing complex API integrations, and driving cross-functional Agile delivery for US-based markets. Combining hands-on technical depth from an M.Tech in Computer Science with strategic product ownership to deliver high-impact user experiences.

EXPERIENCE

Trivium Education Services Pvt. Ltd.

Jan 2025 – Present

Product Management & AI Initiatives • New Delhi (Hybrid)

- **Product Ownership & GenAI Strategy:** Product owner for the end-to-end lifecycle of Generative AI tools, defining features for automated lesson planning, study notes, and quiz generation that scaled educational content creation efficiency.
- **Stakeholder Management:** Partnered with US school district administrators and internal engineering teams to discover requirements, align product roadmaps, and deploy a B2B2C tutoring platform serving 1,000+ active users.
- **Technical Program Delivery:** Accelerated sprint predictability by **50%+** through rigorous backlog prioritization, dependency management, and process optimizations across cross-functional teams.
- **API & Systems Integration:** Engineered and managed technical API integrations across internal architectures and third-party EdTech vendor platforms, ensuring high data reliability and seamless single sign-on workflows.

Fareportal India Pvt. Ltd.

Jan 2023 – Jan 2025

Technical Support Engineer • Gurugram (Hybrid)

- **Infrastructure & SLA Management:** Maintained high-availability network services and proactively tracked infrastructure outages to minimize downtime for a high-volume travel-tech platform serving millions of global users.
- **Enterprise Administration:** Managed complex Office 365 environments, Active Directory architectures, and role-based user access controls to ensure strict operational compliance and zero-disruption continuity for 500+ employees.
- **Incident & Lifecycle Operations:** Owned the end-to-end IT onboarding framework and system provisioning lifecycle; resolved cross-functional technical support escalations under tight SLAs, consistently maintaining top-tier user satisfaction.

EDUCATION

Master of Technology (M.Tech) - Computer Science & Engineering

2024 – 2026

Punjab Technical University • CGPA: 9/10

- **Research Focus:** Design and Performance Evaluation of a Real-Time Fraud Detection System Using Deep Java Library (DJL).

CORE SKILLS

Product & AI Management: Generative AI Applications, LLM Prompt Engineering, Product Discovery, PRD Writing, Roadmap Strategy, Feature Prioritization, User Story Mapping

Program & Delivery: Agile/Scrum Methodologies, Sprint Planning, Backlog Grooming, Cross-Functional Leadership, Stakeholder Management, Process Optimization

Technical Capabilities: REST APIs, API Testing (Postman), SQL, Data Analysis, Deep Learning Fundamentals, Deep Java Library (DJI)

IT Infrastructure: Active Directory, Office 365, IT Service Management (ITSM), Incident & Problem Management, Network Security

RESEARCH & PROJECTS

Real-Time Fraud Detection System Using Deep Learning

M.Tech Research

Designed and evaluated a prototype architecture leveraging deep learning techniques built on the Deep Java Library (DJI). Focused heavily on model performance tuning, latency optimization, and real-world scalability within high-frequency financial fraud scenarios.
