New Delhi, India • +91 9138420299 • angaddhiman10@gmail.com • [LinkedIn](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Product and technical program professional with total 3+ years driving Generative AI feature strategy and Agile delivery for US-facing EdTech platforms. Proposes and scopes GenAI initiatives, authors PRDs, and facilitates sprint delivery, while serving as the primary stakeholder contact for US school-district partners. Combines hands-on technical depth from an M.Tech in Computer Science with strong product instincts to help ship high-impact user experiences.

CORPORATE EXPERIENCES

➤ [Trivium Education Services Pvt. Ltd.](#)

[Jan 2025 - Present]

Role: IT Project Coordinator - Product Management & AI

New Delhi (Hybrid)

- Feature Strategy & Roadmap: Propose and scope Generative AI feature initiatives including automated lesson planning, study notes, and quiz generation - securing leadership sign-off before development, to scale educational content creation efficiency.
- Requirements & PRD Ownership: Independently author PRDs, translating stakeholder needs into detailed, engineering-ready specifications.
- Stakeholder Management: Serve as primary point of contact for US school district administrators; lead requirements discovery and align product roadmaps for a B2B2C tutoring platform serving 1,000+ active users.
- Sprint Facilitation & Delivery: Run and facilitate sprint planning and backlog grooming, accelerating sprint predictability by 50%+ through rigorous prioritization and dependency management across cross-functional teams.
- API Integration Requirements: Define technical requirements and specifications for API integrations across internal architecture and third-party EdTech vendor platforms; partner closely with engineering to ensure high data reliability and seamless single sign-on workflows.

➤ [Fareportal India Pvt. Ltd.](#)

[Jan 2023 - Jan 2025]

Role: Technical Support Engineer

Gurugram (Hybrid)

- Infrastructure & SLA Management: Maintained high-availability network services and proactively tracked infrastructure outages to minimize downtime.
- Enterprise Administration: Managed complex Office 365 environments, Active Directory architectures, and role-based access controls, ensuring zero-disruption continuity for 500+ employees.
- Incident & Lifecycle Operations: Owned the end-to-end IT onboarding framework and system provisioning lifecycle; resolved technical escalations under tight SLAs with consistently top-tier user satisfaction.

EDUCATION

➤ Master of Technology (M.Tech) - Computer Science & Engineering

2024 - 2026

Punjab Technical University - Chandigarh

- CGPA: 9/10
- Research Focus: Design and Performance Evaluation of a Real-Time Fraud Detection System Using Deep Java Library (DJI).

➤ Bachelor of Technology (B.Tech) - Information Technology

2019 - 2023

Chandigarh Engineering College, CGC - Mohali

- CGPA: 9.2/10

CORE SKILLS

- Product & AI Management: Generative AI Applications, LLM Prompt Engineering, Product Discovery, PRD Writing, Roadmap Strategy, Feature Prioritization, User Story Mapping
- Program & Delivery: Agile/Scrum Methodologies, Sprint Planning, Backlog Grooming, Cross-Functional Leadership, Stakeholder Management, Process Optimization
- Technical Capabilities: REST APIs, API Testing (Postman), SQL, Data Analysis, Deep Learning Fundamentals, Deep Java Library (DJI)
- IT Infrastructure: Active Directory, Office 365, IT Service Management (ITSM), Incident & Problem Management, Network Security

RESEARCH & PROJECTS

- Real-Time Fraud Detection System Using Deep Learning (M.Tech Research)

Designed and evaluated a prototype architecture leveraging deep learning techniques built on the Deep Java Library (DJI). Benchmarked model response times and iterated on performance tuning to reduce latency; validated on a sourced dataset with measured accuracy and latency metrics at prototype scale.
